FOR FALL AND SPRING

ISSUED AUGUST 1.

MARTIN THOMSEN

11
FLORIST, LANDSCAPE ARCHITECT
AND NURSERYMAN

70-72-74 WEST AVENUE

(WELLSBORO GREENHOUSE)

WELLSBORO, PENN'A.

INTRODUCTION

In presenting this price list, we wish to thank our customers for their patronage in the past year, and hope they will favor us with their orders the coming season also. We indeed are glad to say that we are able to fill any order for nursery stock with the very best quality of plants, at prices which can compete with any of the larger nurseries. We wish to be a real help to our community and do a large volume of business at very reasonable prices rather than sell but a small quantity of high priced stock; thus we are sure best to take care of your interests. For those who need larger quantities of stock, we indeed will be pleased to quote special prices; also for larger orchard orders.

Just recently we have taken possession of No. 70-72-74 West avenue, to which belong four acres in the rear. We are now transferring all our stock to that place and expect to make our permanent place of business at this ideally located place, the best in Wellsboro.

TERMS

Correspondence

We give every inquiry prompt attention, and all estimates free of charge.

Order Early

It greatly facilitates selection and reservation of stock if orders are received early.

Net Cash

Credit only to parties who are known to us, and bills are always payable by the 10th of the following month. The prices are subject to change without notice.

Complaints

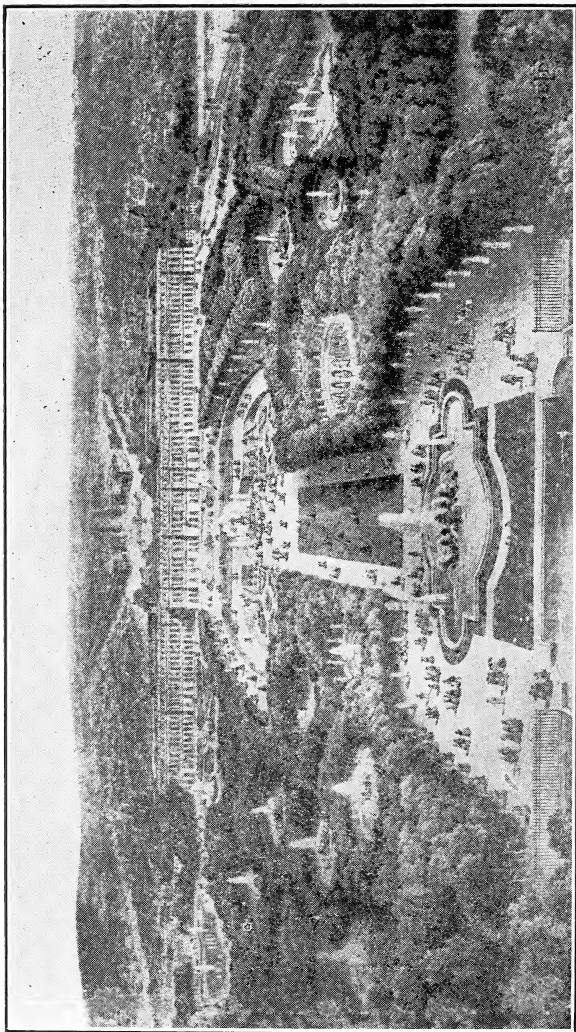

We make no adjustment unless complaints are made within five days after receipt of stock.

Warranty

We guarantee all stock to reach you in good condition, and true to name, but we do not guarantee the growth. Remember, plants are living organisms and are subject to disease, insects, drouth, and are often exposed to careless treatment, etc.

Delivery

We deliver free of charge all orders of \$20.00 or more, to any place within a radius of 20 miles of Wellsboro.

THE CASTLE OF VERSAILLES

With the parks and thousands of fountains. In the castle, the treaty of peace was signed, June 28, 1919.

OUR LANDSCAPE GARDENING

No other branch of horticulture have we studied so extensively as our famous Landscape Work. It has only been possible by means of many years' experience at great expense in the fourteen leading countries of Europe and America.

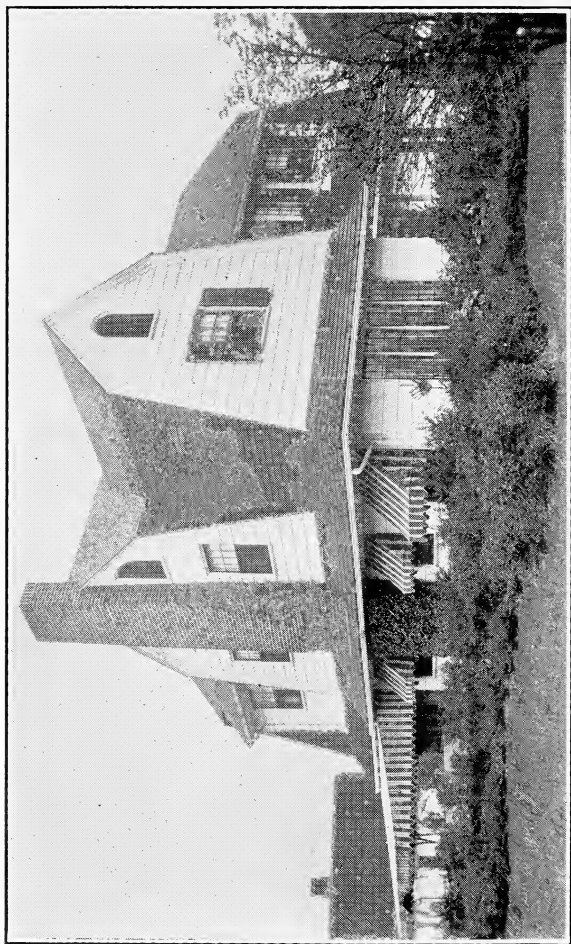

Our experience reaches as far back as 1911. At that time we began our studies in a town like Wellsboro in Denmark. After four years of studies in various sections of that country, we also took several theoretical courses in Landscape Architecture and Horticulture. Having completed these courses, we went to Copenhagen and vicinity and there studied gardens and parks which perhaps are the most famous in the world. Those tourists who have been there (among others, some from Wellsboro) will surely recall the wonderful Botanical Garden, Orsted Park, Oster Anleg, Felledparken, and Tivoli—also the wonderful gardens to the north of Copenhagen on the bathing beach.

But our ambition was still not satisfied. Having spent ten years in Denmark, we added the finishing touches to our horticultural education by touring in the most important countries of Europe for three years.

Americans who have visited Germany have surely not forgotten the beautiful gardens and parks along the Rhine and those of Hamburg, Berlin, Dresden, Munich, etc. There they had a pretty good time which they never will forget.

Czecho-Slovakien also is renowned for its beautiful parks; but above all, whose memory does not go back to the wonderful parks and gardens in Vienna, Austria, the—wondershoene—Schoenbrunnen, State Park and the beautiful creations by the skill of men on Opern-Karnth, Kolowrat-Scholten and Burg Ring, etc.

We extended our trip into Italy. There we saw the most original gardens. Who of the many American tourists can ever forget the famous parks, such as Giardini Publico, and the gardens around Garibaldi Statue at Venice, the famous parks at Padua, Bologna and Florence, but especially Parco Umberto and the parks around Garibaldi Statue (the Italian national hero), Vatican, Colosseum, Forum Romanum, Palatin, etc., at Rome. Milan has one of the most

beautiful parks in Italy, "Parco Pubbico," but the most famous gardens do we see in the Riviera, which range from Genoa to the French border. The vegetation almost corresponds to that of California, except the immense quantities of roses and carnations (Jonkheer J. L. Mock, Frau Karl Druschki and Ulrick Brunner are the standard varieties). There are miles and miles of these two kinds of flowers growing on terraces on the mountainside. The king of the gardens is surely "Giardino Mortola," on the French border.

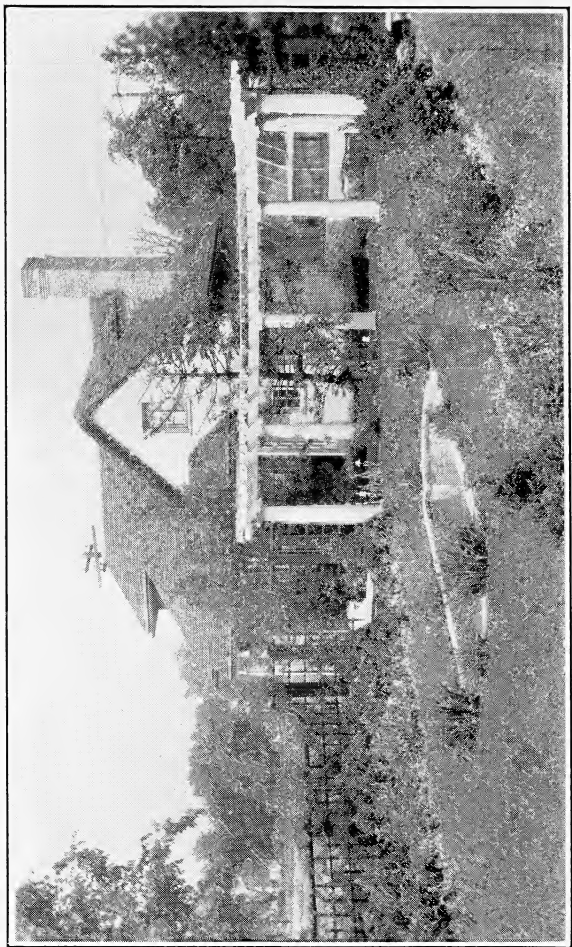

Wonderful are the gardens in the French Riviera. We do not think we exaggerate if we pronounce those gardens among the most lovely in the world. We will only mention such celebrated places as Toulon, Cannes, Nice, Menton, and not to omit Monte Carlo, which is located in the little independent state of Monaco. If there is a paradise on earth, that distinction belongs to Monte Carlo. Its tropical vegetation defies description. Lyons and Orleans are considered as some of the most beautiful places in France. However, Paris and its suburbs boast gardens and parks the most famous in Europe. There are Luxembough Parks, Bois de Bologna, Champ de March, etc., etc. Versailles with its celebrated parks and unexcelled gardens. The park with its thousands and thousands of fountains, which play but one hour on the first Sunday in every month. Tourists who haven't seen it haven't been in France. We were there privileged to study several months under the famous Landscape Architect, "Lemaitre."

Georges Weiss, at St. Cloud, is known as the one who has the most romantic and ingenious "Japanese Garden" in France, with trees over a hundred years old, which are but a few feet high, and with small artistic bridges and creeks.

Luxembourg's rose growers are among the foremost in the world. In Belgium are the picturesque "Royal Gardens" at Laken—the best known.

Holland, Sweden and Norway also have wonderful parks and gardens.

The 19th of March, 1924, we came to the "Land of Opportunities," without any knowledge of the American language or American conditions. However, a half year in Rochester, "The Flower City," gave us insight into Amer-

ican conditions. We adopted them immediately, and it enabled us to start this business here in Wellsboro the first of November, same year. Due to the fact that Wellsboro really needs a Landscape Architect and Gardener and a dependable Florist, we have, by strict attention to our customers' interests, already worked up a well established business. We offer our skill and experience to everybody in order to make Wellsboro a prosperous and beautiful city by beautifying their homes with lawns, shrubbery, trees and hedges. Nothing guarantees returns on your property as money invested in lawns, shrubs and flowers.

In order to secure for our customers the most expert service possible, we have taken study trips to northern points such as Oswego, Rome, Watkins, Little Falls, Glens Falls, but specially to the famous resort, Saratoga Springs, with the most splendid gardens.

Just recently we took a trip to Niagara Falls, Canada, Buffalo, Cleveland, Toledo, Chicago, Milwaukee, St. Paul and Minneapolis. We saw the typical American gardens along the lake shore between Buffalo and Cleveland, also between Cleveland and Toledo. Chicago also has its beauty spots, as well as Milwaukee, though Minneapolis can pride itself on having gardens and parks which are on a par with the best in the northern states.

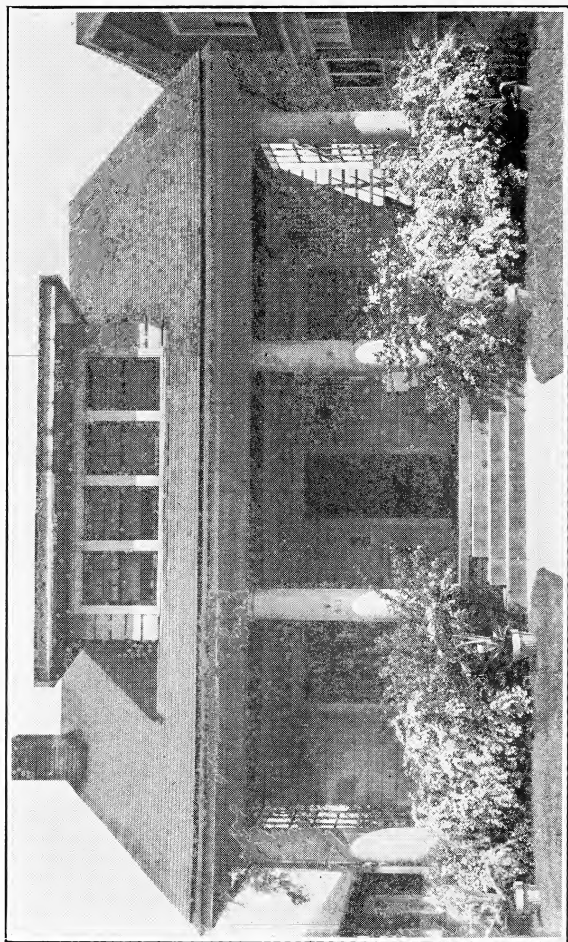

During our attendance at the golden anniversary of the Association of American Nurserymen, we secured the best stock obtainable for gardens from northern nurseries, such as roses, shrubs, evergreens, fruit trees, small fruit, ornamental tree, peonies and hardy perennials, at prices which will outbid any of the larger nurseries.

Why send your orders out-of-town when you can get much better, stronger and healthier plants at prices lower than what you may pay at far-away nurseries—and when they come to you mostly are half dead, and then not have expert help to plant them? Buy right here at home; you will always be served better at home than you can be elsewhere, and only with full-of-life plants, and with expert advice or help to set them out.

OUR TREE SURGERY SERVICE

How often do we not see beautiful trees which are being permanently harmed by dead limbs and decay, which has followed accident and unskillful trimming.

By cleaning the dead wood out and preparing the inside against further decay and then filling the open wounds, we invariably can again have a beautiful tree, a tree which it will take more generations to grow. We do that work very skillfully, and at reasonable prices. Ask our many satisfied customers—they are our best advertisement.

FOR ABOUT \$10.00 WE CAN MAKE YOUR HOME LIKE THIS.

ROSES

"The Queen of the Flowers"

Roses are the oldest cultivated flowers and no garden is complete without these favorites to furnish fragrant blossoms of all colors from spring until fall. We offer only those proved best in hardiness for our hard winter, and following is a selection of the most beautiful roses ever produced. They are the product of wide experience and many years' observation. These include the older varieties, as well as the latest novelties:

SHRUBS

When we see a house with shrubs around it, and see another without them, how bare, poor and uncomfortable it looks. By only planting a few shrubs in front of the house your property will increase over 1000% the value of the money spent for the improvement. However, they should be planted right, and the proper varieties in suitable places. By ordering the plants here, we will be pleased to tell you exactly how to plant and what to plant. On larger orders, we will draw a plan, if you give us the exact dimensions. The kinds mentioned below are only a few of the very best; if other kinds are desired we can furnish them in a short time at very moderate prices.

Almond White and Pink Double—Some of the most beautiful early spring flowering shrubs, with pretty white or pink flowers; snuggle tight to the twigs. Each	85c
Althea—Double white, purple or red. Flower in Aug.-Sept. They are very beautiful, but need a little protection in the winter. 2-3 feet, each.....	60c
Barberry (Berberis Thunbergi)—There is no shrub in existence so generally planted or more practical for all purposes where beautiful foliage effect is desired. Absolutely the most hardy and beautiful for hedges. 12-18 in.	\$20.00 per 100
Butterfly Bush (Buddleia Magnifica)—One of the most showy and beautiful shrubs with large spikes of blue flowers in August-September. 2-3 feet.....	60c
Cornus—Is very desirable in taller borders. 2-3 feet..	60c
Deutzias—Some of the most beautiful shrubs, which vary considerably in height and habit, but bloom alike in dainty bell or tassel-shaped flowers, borne thickly in wreaths along their branches in June. Size according to the variety.....	60c
Forsythias—Very attractive flowers in early spring. 2-3 feet	60c
Cydonia Japonica—Who has not seen these famous red flowering bushes in early spring. Very desirable. 12-18 in.	75c
Honeysuckles—Bright and pretty fragrant flowers, followed by showy berries that last through the fall. 2-3 feet.....	60c

Hydrangeas, Grandiflora and Paniculata—The massiveness of bloom on these valuable shrubs and their long blooming season, assures them a place in every grouping. Large bunches of white flowers. 2-3 feet	75c
Lilacs—The best named varieties grafted. 18-24. in..	\$1.00

Spring! Spring! Spring!

Do you realize how wonderful a time Spring is? Have you been out in the field, in the woods or in your garden? Don't you see how the small leaves are coming out; how everything shows the spirit of Spring, the most wonderful season of the year?

Some days ago, we planted a few evergreens around a porch in Mansfield; a small boy came out crying with joy:

"Oh, he's making our home pretty, too."

It was that little boy's thought, an expression of the most tender emotion, created in a little child. What time are you going to let us help you in making your home pretty, thus causing and promoting this wonderful sentiment in your child? Nothing will bring you more

Love, Joy, and Happiness

than surrounding your home with a beautiful front planting and flower garden, nothing brings more harmony in marriage than beautiful surroundings of what you call **your home**.

For a very small cost we are able to help you in making it, and we will be only too glad to do so, either this Spring or next Fall; but in either case call us today or at least drop us a card that we may come and see you about it.

We offer the most expert service in

Artistic landscape gardening

after many years of experience in fourteen of the leading countries in Europe and America.

Our tree surgery service

How often we see beautiful trees permanently harmed by accident and unskillful trimming. By cleaning the dead wood out, preparing the inside and filling it, we can nearly always again have a beautiful tree. Also, all trees need trimming nearly every year, if you want them to develop in all their beauty. This work is best done either in early winter or in June and July. We also do expert work in removing large trees, if you are especially interested in this part of our service.

Better call on us today or write us a card that we may come and give you suggestions and tell you what is needed, without any obligation on your part.

Our high grade nursery stock

We keep a full line of high grade nursery stock which really is second to none; absolutely true to name and **full-of-life-plants**. We mention only a few here, if you are interested in others, ask for them, as we do not list all that we have on hand.
